

OUR VANILLA,
YOUR BRAND

EUROVANILLE, OVERVIEW

Our company has been associated with natural vanilla excellence since 1990. Our commitment and our ability to innovate and oversee all stages of vanilla production have enabled us to achieve our current position as a leader in the natural vanilla market.

In 2021, we had sales of 43 million euros. This figure is the result of a strong international presence, in more than 85 countries, in the industry, supermarket, wholesale and craft sectors. In recent years, our workforce has increased considerably, reaching 120 people at the end of 2021. Most of them work at our Hauts-de-France site, where several projects are currently underway: implementation of the CSR policy initiated in 2020 and research on vanilla plants in an experimental greenhouse created in 2019.

Our responsiveness, our proximity to customers and our versatility are all factors that have enabled us to offer a service that is fully adapted to the needs of our customers in the food industry over the long term.
